

Mitchell Powersystems is sole UK and Ireland Distributor for Allison Transmission, providing application engineering, new product sales, genuine parts, and service support across the UK.

With over 60 years' experience across all market sectors selling, overhauling, remanufacturing, repairing, and servicing Allison Transmissions both in the field and in our fully equipped modern workshop facilities, we are the automatic choice.

**Allison**  
**AUTHORIZED<sup>SM</sup>**

The benefits of dealing with an Allison Authorized Distributor include:

- Application Engineering Capabilities
- Equipped with factory trained Technicians
- Outfitted with specialised tools & equipment
- Access to the latest technical information
- Exclusively distribute Genuine Parts™
- Offer Extended Transmission Coverage (ETC)

Unauthorized service providers put your people, transmissions, and vehicles at risk.

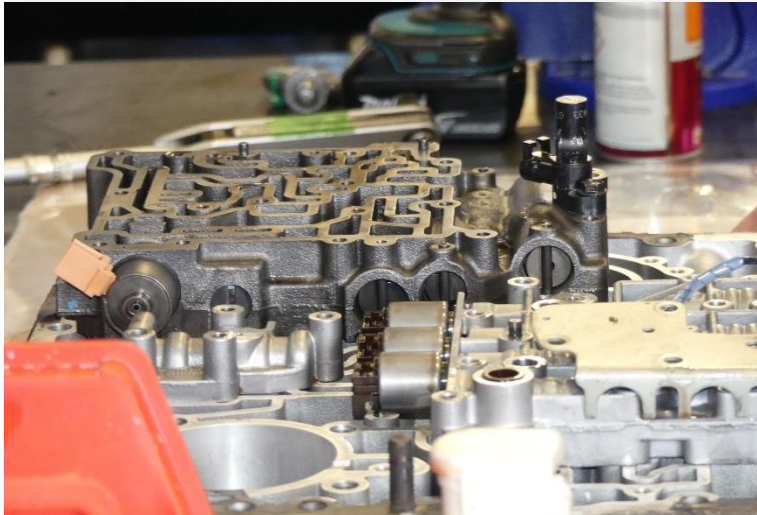

Our qualified Allison Technicians are fully factory trained and up to date with the necessary service techniques and knowledge of the entire range of Allison products, allowing them to quickly diagnose and fix any issues you may have with your transmission.

We are fully equipped with all the required specialised tooling and have access to the latest Allison Transmission technical information, service bulletins and reach-back to Allison factory resources.

Every transmission is overhauled from the ground up. Transmissions are disassembled part-by-part to clean, qualify and test. Each component is screened for the possibility of reuse to minimise cost for the customer.

New components needed are always brand new, exclusively Allison Genuine Parts™. Quality inside means you get a more reliable, dependable remanufactured transmission. It's a promise you'll only get from Mitchell Powersystems....

We guarantee that every part and every process associated with our overhaul and repairs is 100% authentic. All our remanufactured transmissions undergo proprietary dynamometer testing to ensure they exactly meet the original factory specifications and come with a full test report and the added security of a 2-year warranty.

You are also supported by our service network of 5 Service Centre's covering the UK who stand behind every Allison Transmission we overhaul and or repair.

We offer Allison Genuine Parts™ that are identical to the original equipment. From transmission filters to overhaul kits, to sensors, we have what you need. More importantly, we have the expertise to guide you through the process and identify the parts you need.

Enjoy the experience of purchasing Allison Genuine Parts™ from our online store: [www.shop.mitchells.co.uk](http://www.shop.mitchells.co.uk)

We make it easy to get the parts you trust for the equipment you rely on....
