

Field Service Technicians – Based Romsey

Mitchell Powersystems, a member of the Turner Group of Companies, forms part of the largest privately owned Diesel Engineering organisation in the United Kingdom.

Due to our continued success, we are expanding our national service operation which focuses on diagnosis, repair and replacement of engines, transmission and axles to both on and off highway vehicles. To support our high level of customer service, we are looking for ambitious people who enjoy a challenge to join us working from our Romsey branch.

Candidates considered for the current vacancies will ideally have served a recognised apprenticeship and have previous experience working on industrial and off-highway diesel engines as well as heavy duty automatic transmissions. Demonstrating a strong safety culture whilst delivering work to a high standard in line with BS EN ISO 9001:2008, BS EN ISO 14001 and OHSAS 18001 standards is a must and successful applicants will uphold our strong customer focus and drive for continuous improvement.

Adhering to customer processes whilst also utilising work instructions and manufacturer specifications, you will need to be proficient in IT, particularly with regards to using equipment for diagnostics. With sound numerical skills, excellent written and oral communication and the ability to work autonomously or as part of a team is essential.

Candidates will be required to demonstrate a high level of customer service/quality control with extensive fault finding and problem solving ability. The ability to multi-task combined with a methodical and analytical approach is important. Working knowledge of products supported by Mitchell's would be advantageous.

A willingness to travel and flexibility to deal with changing environments is essential, a company van will be provided for these roles.

If you wish to be considered for these exciting positions, please forward your CV with a covering letter to careers@mitchells.co.uk.

TURNER GROUP IS AN EQUAL OPPORTUNITIES EMPLOYER
