

Service Centre Manager – Birmingham

Mitchell Powersystems, a member of the Turner Group of Companies, forms part of the largest privately owned Diesel Engineering organisation in the United Kingdom.

We are seeking to recruit a Service Centre Manager for our Birmingham, Central Diesel site. Reporting to the Operations Director, the successful candidate will be responsible for the leadership and successful performance of all activities and deliverables for Birmingham Service.

You will have a proven track record of multi-discipline management and demonstrate sound commercial knowledge. With previous experience in a similar role at senior level combined with the ability to implement change management systems. A strong financial understanding, demonstrating excellent people management skills, decision making, organisation and planning are fundamental to this position.

With a background in the diesel engineering environment, the role calls for competent process management and development, ensuring that the mandatory ISO9001 standards are met whilst effectively managing customer demands and expectations. This rewarding role demands many skills such as communication, self- motivation and a positive attitude. The successful applicant will have extensive experience and be comfortable communicating with customers at all levels. A willingness to travel and flexibility to deal with changing environments is essential to be successful in this role.

If you wish to be considered for this exciting position, please forward your CV to careers@mitchells.co.uk. If you have not had a response from us within two weeks of submitting your CV please consider your application to have been unsuccessful at this stage and thank you for your interest in the Turner Group.

A competitive employment package is on offer commensurate with skills and experience.
