

Service Supervisor - Glasgow

Mitchell Powersystems, a member of the Turner Group of Companies, forms part of the largest privately owned Diesel Engineering organisation in the United Kingdom. We are looking for a hardworking and committed person who enjoys a challenge to join our team at our busy service centre in Glasgow.

The successful candidate for the post of **Service Supervisor**, will report directly to the General Manager, the role involves the effective process handling of all service jobs, from taking the initial enquiries and raising SRO orders to ensuring timely job completion.

The role calls for competent process management and development, ensuring that the mandatory ISO9001, ISO 14001 & OSHAS 18001 standards are met whilst effectively managing customer demands and expectations. Candidates should have experience in a similar supervisory role and sector and be able to demonstrate knowledge of service operations, record keeping, and the use of a computer system to control activities in line with departmental KPI's. Experience of our core products and market sectors is also a pre requisite. The role will require a degree of flexibility, in respect to visiting customer and operational sites. Excellent communication and a full driving licence are also essential requirements of the role.

In addition to the core activity stated above, duties will include supporting the depot's Service team with technical support, and leading and or contributing to department meetings. The successful candidate will have a "can do" attitude and an enthusiastic, friendly and professional approach to their work.

If you wish to be considered for this exciting position, please forward your CV to careers@mitchells.co.uk.

A competitive employment package is on offer commensurate with skills and experience.
