

Mitchell Powersystems has been supporting the power generation sector for many years, providing reliable preventative and reactive maintenance services to a diverse range of customers, end users and maintenance contractors across the length and breadth of the UK.

We provide a range of engine maintenance options to suit every customer requirement in order to keep your emergency/standby generator in prime condition and ready to power up whenever it is needed.

We are proud to be dealers and distributors for some of the world's leading manufacturers of premium brand Diesel Engines that power many brands of emergency/standby generators in the power generation sector.

We stock and supply only Genuine Parts to make sure your generator can maintain performance at its peak potential.

Genuine Parts are designed tested and manufactured to meet the same high-quality requirements as the factory-fitted parts used when your generator's engine was built.

From our central warehouse and distribution hub located in Sutton-in-Ashfield we distribute parts throughout the UK and overseas.

You can also buy Genuine Parts from our Online Store: [www.shop.mitchells.co.uk](http://www.shop.mitchells.co.uk)

## GENUINE PARTS SERVICE SUPPORT UK-WIDE

Keeping your equipment fully operational and productive is a top priority and customers have our full support from troubleshooting, removal, overhaul, or reman supply to re-installation and commissioning, and ongoing maintenance, including supplying and genuine parts.

We have a UK-wide service network of over 35 factory trained Field Service Engineers, backed up by 22 Workshop Technicians ready to provide on-site service support when and where you need it.

As official dealers and distributors we know the engine powering your generator better than anyone, and we offer service and support that can be tailored to your specific needs. Additionally, we offer extended warranty options on parts fitted by an authorised dealer to increase your peace of mind.

With Service Centres located in Glasgow, Hayes, Romsey, and Sutton-in-Ashfield, we provide a truly national customer support capability, and we directly employ all our Field Service Engineers.

Our qualified Field Service Engineers and Technicians are fully factory trained and experienced in a wide range of Diesel Engine types powering various makes of emergency/standby generators allowing them to quickly diagnose, fix and repair issues you may have with your generator, minimising downtime.

We are also equipped with the latest specialised OEM tooling and equipment.
