

For emergency responders, failure is not an option, and Mitchell Powersystems delivers the highest level of product support to ensure this doesn't happen.

We have decades of knowledge and experience supporting Fire & Rescue operators, including Airport Fire & Rescue with our Allison Transmission Certified Technicians and Genuine Parts in optimising vehicle uptime, with the assured speed and performance this exacting industry requires.

We are proud to be the sole UK distributor for Allison Transmission, the world's leading manufacturer of automatic transmissions, that power many of the UK fleet of firefighting appliances and assets.

We stock and supply only Genuine Parts to make sure your engine, transmission and drive system can maintain performance at its peak potential.

Genuine Parts are designed tested and manufactured to meet the same high-quality requirements as the factory-fitted parts used when your engine, transmission and driveline was built.

From our central warehouse and distribution hub located in Sutton-in-Ashfield we distribute parts throughout the UK and overseas.

You can also buy Genuine Parts from our Online Store: www.shop.mitchells.co.uk

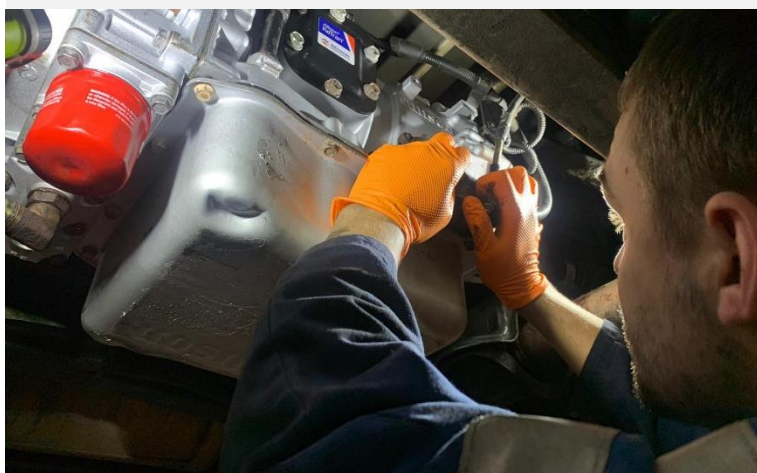

GENUINE PARTS SERVICE SUPPORT UK-WIDE

Keeping your appliance fully operational and productive is a top priority and customers have our full support from troubleshooting, removal, overhaul, or reman supply to re-installation and ongoing maintenance, including supplying and genuine parts.

We have a UK-wide service network of over 35 factory trained Field Service Engineers, backed up by 22 Workshop Technicians ready to provide on-site service support when and where you need it.

As official distributors we know your Allison Transmissions better than anyone, and we offer service and support that can be tailored to your specific needs. Additionally, we offer preventive maintenance services and warranty options to increase your peace of mind.

With Service Centres located in Glasgow, Hayes, Romsey, and Sutton-in-Ashfield, we provide a truly national customer support capability, and we directly employ all our Field Service Engineers.

Our qualified Field Service Engineers and Technicians are fully factory trained and experienced in a wide range of Fire & Rescue applications, allowing them to quickly diagnose, fix and repair issues you may have with your equipment minimising downtime.

We are equipped with the latest specialised tooling and have access to product technical information, service bulletin's including reach-back to OEM factory technical resources.
